

Attorney Docket No.: FMCE-P073

A2 4(Amended). A seal component as defined in claim 1, wherein the seal component comprises a seal backup spring.

---

A3 7(Amended). A seal component as defined in claim 1, wherein the seal component comprises a sealing ridge that, in use, makes sealing contact with the sealing surface.

8(Amended). A seal component as defined in claim 1, wherein the seal component has a U-shaped cross-section.

9(Amended). A seal component as defined in claim 1, wherein the shape memory alloy is selected from the group consisting of NiTi, CuZnAl and CuAlNi.

---

A4 14(Amended). A seal component as defined in claim 1, wherein the shape memory alloy comprises a one-way shape memory alloy.

15(Amended). A seal component as defined in claim 1, wherein the shape memory alloy comprises a two-way shape memory alloy.

16(Amended). A seal component as defined in claim 1, wherein the seal component comprises a bi-metallic construction.

17(Amended). A seal component as defined in claim 16, wherein the seal component comprises a U-shaped cross-section.

18(Amended). A seal component as defined in claim 1, wherein the seal component comprises a tubular cross-section.

---

Please add the following new claim:

A5 20. A seal component as defined in claim 1, wherein the seal component further comprises a corrosion-resistant material.

---
